Quality Statement

Our Mission

Shaping a World of Trust by Ensuring Responsible Progress

Bureau Veritas is a Business to Business to Society services company that contributes to positively transforming the world we live in. We work closely with our clients to help address their critical challenges in quality, safety, health, and sustainability, to the benefit of the Society as a whole.

We play a pivotal role in building and protecting companies' reputations, supporting them as they build trust with their stakeholders.

By broadening the scope of our services, expanding our international network, and staying ahead of global trends, we better serve our clients and shape a more sustainable future.

Our Commitment

To support our customers to achieve and exceed their goals, Quality at Bureau Veritas is to:

- Continuously challenge and improve our quality management system, to ensure its adequacy with Bureau Veritas ambitions and customer satisfaction levels.
- Satisfy and build on our clients and all other applicable requirements to propose innovative services.

Since 1996 Bureau Veritas has been ISO 9001 certified through a recognized international independent certification organism.

Since 1828, we have acted as trust-makers between companies, governments, and society. We are independent and impartial guarantors of our client's word.

The Bureau Veritas Code of Ethics meets all TIC (Testing, Inspection, and Certification) Council principles and requirements. Its implementation is regularly assessed by an external third party.
